DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 06/26/2003 was fully considered by the examiner on 02/07/2003 and the initialed copy of page 2, as requested by applicant is attached in this correspondence along with the IDS submitted 11/05/2004.

Allowable Subject Matter

2. Claims 1-16 allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record, Wolfe et al., Patent #6,507,817, alone or in combination, does not teach, *inter-alia*, a subscriber to a voice service that can specify a predetermined condition to output personalized information to the subscriber by way of creating an active voice page from a markup language that was generated when the voice service was executed upon satisfaction of the predetermined condition; generating and placing an outbound call to the subscriber wherein the personalized information from the active voice page is presented to the subscriber so that an interactive voice session with the subscriber is established.

It is not obvious to one skilled in the art to modify the system in Wolfe to generate an outbound call to the subscriber to establish an interactive voice session based on the generated active markup language voice page as the subscriber in Wolfe can not specify preferences in the voice service in which an outbound call is placed to him/her upon satisfaction of the predetermined preference.

Art Unit: 2645

In contrast, Wolfe's system entails a subscriber "calling into" a system to retrieve an HTML document form for audible interaction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
